RoLECT: a self-assessment tool against EOSC RoP Legal & Ethics Compliance

Marianna Katrakazi
Legal Associate ATHENA RC

What is RoLECT?

- Self-assessment tool against EOSC RoP focusing on Legal & Ethics aspect.

- Designed to promote compliance with EOSC RoP & raise awareness.

- Understand the main priorities of EOSC RoP.

- Before starting the onboarding process, prospective resource providers can verify if the resources meet the legal & ethics standards of EOSC RoP.

- Quick look at the main priorities of RoP > proceed to corrective actions for onboarding or proactively integrate features ensuring compliance into the resource.

EOSC RoP Legal & Ethics Compliance

Hands—on Session

Scenario

Assume that you have a research product (data set) that you wish to onboard within the EOSC Portfolio, but you are not sure if your data set meets the basic EOSC RoP requirements.

What should you do?

- Visit RoLECT

https://rolect.ni4os.eu/rolect/auth/login

Hands—on Session

Fill in the RoP compliance form and verify:

If you can identify the Intellectual Property Rights included in your resource.

If you are able to answer positively the first section of questions

[General Information]

NI4OS –Europe toolbox and good practices at EOSC

Hands—on Session

YES I can:

Congratulations!

You can continue checking the rest of inclusion criteria.

NO I can't:

Review your data set and proceed to corrective actions for complying with EOSC RoP.

Questions?

Thank You
