

National Initiatives for Open Science in Europe

EOSC portal

National End-Users Training for North Macedonia

Sonja Filiposka, FINKI, UKIM

EOSC = European Open Science Cloud

- ❑ an initiative by the European Commission (EC)
 - ❑ to provide researchers, and science and technology professionals
 - ❑ the means to collaborate
- ❑ key aspect of the EU Digital Single Market
 - ❑ putting Europe's digital assets at the disposal of scientists
- ❑ officially launched in November 2018, with access to initial services via the [EOSC Portal](#)
 - ❑ Developed with H2020 projects

EOSC vision

Europe's trusted virtual environment

store, manage, analyze and re-use data for research, innovation and educational purposes

EOSC = an entry point to find, access and use services from multiple infrastructures

EOSC Association

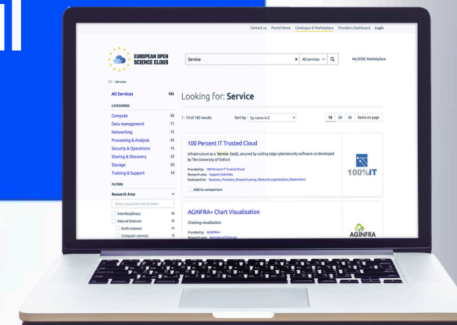

- represents European stakeholders and organisations in developing EOSC
- first official General Assembly 18.12.2020
- work to develop the EOSC from January 2021 onwards.

ABOUT

DETAILS

REVIEWS (0)

AMNESIA allows end users to anonymize sensitive data in order to share them with a broad audience. The service allows the user to guide the anonymization process and decide on a flexible trade-off between privacy guaranty and data utility. The service is offered through a web interface that allows users to explore the anonymized data visually. Moreover, the service detects duplicate anonymized files when they are uploaded to Zenodo. Reduce or eliminate the dangers to the privacy of the users that are associated with the data. Allow data owners or curators to safely share the data with other experts and to benefit from their processing on them.

Projects

The screenshot displays the user interface of the European Open Science Cloud (EOSC) Projects page. At the top, there is a navigation bar with links for 'Contact us', 'Portal Home', 'Catalogue & Marketplace', 'Providers Dashboard', and the user 'Sonja Filiposka' with a 'Logout' option. The main header features the EOSC logo and a search bar with the placeholder 'Find resource...'. Below the search bar, there is a breadcrumb trail 'My projects > test' and a section for 'MY PROJECTS' containing the project 'test' and a '+ CREATE NEW PROJECT' button. The project 'test' is shown in a card with 'EDIT', 'DUPLICATE', and 'DELETE' buttons. Below the card are tabs for 'RESOURCES', 'PROJECT DETAILS', and 'CONTACT WITH PROJECT SUPPORT'. The 'PROJECT DETAILS' tab is active, showing the project name 'test', email 'sonja.filiposka@finki.ukim.mk', and customer details including 'Customer Typology' (Single user), 'Organization' (Ss. Cyril and Methodius University), 'Department' (Faculty of computer science and engineering), 'Origin country' (North Macedonia), and 'Webpage'. A 'Report a technical problem' button is located at the bottom right of the page.

Thousands Collaborate over new COVID-19 Data Portal

Over 73,000 users are collaborating on a new online platform set up by the European Open Science Cloud Initiative, where scientists can share COVID-19 data and accelerate our understanding of the virus to help develop treatments and vaccines quicker.

About this portal

The COVID-19 Data Portal was launched in April 2020 to bring together relevant datasets for sharing and analysis in an effort to accelerate coronavirus research. It enables researchers to upload, access and analyse COVID-19 related reference data and specialist datasets as part of the
