# National Initiatives for Open Science in Europe

WP2 Webinar
Operational aspects

Elli Papadopoulou
ATHENA RC

# Operational aspects - Overview

**Governance & Organization**

**Definition of Strategy**
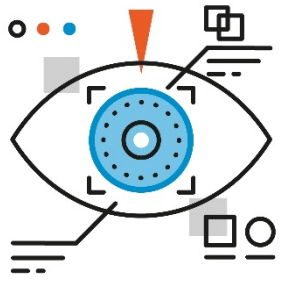

**Infrastructures & Services**

**Sustainability**

- **Sets** the framework of co-operation and **guides** activities of NOSCI members
- **Proposes** rules and recommendations in the form of commitments
- **Draws** the needs and agrees on national EOSC implementation
- **Ensures** continuation of NOSCIs in the short and long term

# Governance and Organization

- Planning - Establishment - Support and maintenance

- Activities
  - Internal: workflows, actions and deliverables
    - terms and conditions
      - roles and responsibilities
      - commitments
      - common roadmap
  - External: negotiations, collaborations with external parties
    - formal representation scheme
      - EOSC Association

# Governance and Organization

- Planning - Establishment - Support and maintenance

- Activities
    - Internal: workflows, actions and deliverables
        - terms and conditions
            - roles and responsibilities
            - commitments
            - common roadmap
    - External: negotiations, collaborations with external parties
        - formal representation scheme
            - EOSC Association

**All types** of Open Science stakeholders –> use D2.1

# Governance and Organization

- Planning - Establishment - Support and maintenance

- Activities
    - Internal: workflows, actions and deliverables
        - terms and conditions
            - roles and responsibilities
            - commitments
            - common roadmap
    - External: negotiations, collaborations with external parties
        - formal representation scheme
            - EOSC Association

! **All types** of Open Science stakeholders –> use D2.1

! **Collect** Capacity, supplies and area of influence in R&D -> organigram

# Governance and Organization

    - terms and conditions
      - roles and responsibilities
      - commitments
      - common roadmap
  - External: negotiations, collaborations with external parties
    - formal representation scheme
      - EOSC Association

**All types** of Open Science stakeholders –> use D2.1

**Collect** Capacity, supplies and area of influence in R&D -> organigram

**Consult** D4.3 for technical, procedural, legal tools https://zenodo.org/record/3820880#.YBh1ougzY2x

# Definition of Strategy - Outputs

- Strategic Plan (inc. actions) [long term] – Business Plan (inc. budget) [mid term] - Annual plan [short term]
- Clear set of mandates and encouragements

A. Research Outputs
  - Literature
    - Green OA
    - Gold OA
  - Research Data
    - Open and FAIR
    - Data Management Plans (DMPs)
  - Software
    - FOSS and FAIR
    - Software Management Plans

# Definition of Strategy - Outputs

- Strategic Plan (inc. actions) [long term] – Business Plan (inc. budget) [mid term] - Annual plan [short term]

- Copyright Law?
- What can be supported?
- What types of publications?

- "as open as possible, as closed as necessary"
- What level of FAIR?
- Align with national law
- DMP tools integration

- What level of FAIR? ; What can be supported?
- Maturity of software management plans

# Definition of Strategy - Procedures

B. Access, preservation and RDM

- o Access policies
  - – Excellence-driven access
  - – Market driven access
  - – Wide access
- o Preservation policies
  - – Retention, back up, privacy
- o RDM policies, including FAIR

# Definition of Strategy - Procedures

## B. Access, preservation and RDM

- Access policies
  - Excellence-driven access
  - Market driven access
  - Wide access
- Preservation policies
  - Retention, back up, privacy
- RDM policies, including FAIR

> [!]
> - Is European Charter for RIs followed?
> - Is there an updated RIs Roadmap?

# Definition of Strategy - Procedures

## B. Access, preservation and RDM

- o Access policies
  - – Excellence-driven access
  - – Market driven access
  - – Wide access
- o Preservation policies
  - – Retention, back up, privacy
- o RDM policies, including FAIR

> ! • Is European Charter for RIs followed?
> • Is there an updated RIs Roadmap?

> ! Long-term storage and curation Certification?

# Definition of Strategy - Procedures

> - Connection with Digital Skills and Jobs Coalition?

# Infrastructures and services

- National Service Catalogue
- Information Technology Service Management Framework
- Monitor

# Infrastructures and services

- National Service Catalogue

- Information Technology Service Management Framework

- Monitor

> ! 
> - Participation to EOSC pillars (OpenAIRE, EGI, PRACE, etc)
> - EOSC service (-Core / -Exchange)

# Sustainability

- Cost-benefit analysis highlighting recurring and non-recurring cost
  - Infrastructures & services
  - Human resources
  - Quantitative and qualitative benefits
- Sustainability plan
  - Contribution to open calls
  - Crowdsourcing
  - National fund
  - National projects
  - Membership

# Towards the Greek NOSCI

- Informal - Task Force
  - Set up and co-ordinated by ATHENA RC and supported by GRNET
  - Supported by more than 11 national R&D organizations and 23 research infrastructures and initiatives
- Clear roadmap and timeline to work on delivering a National OS Plan
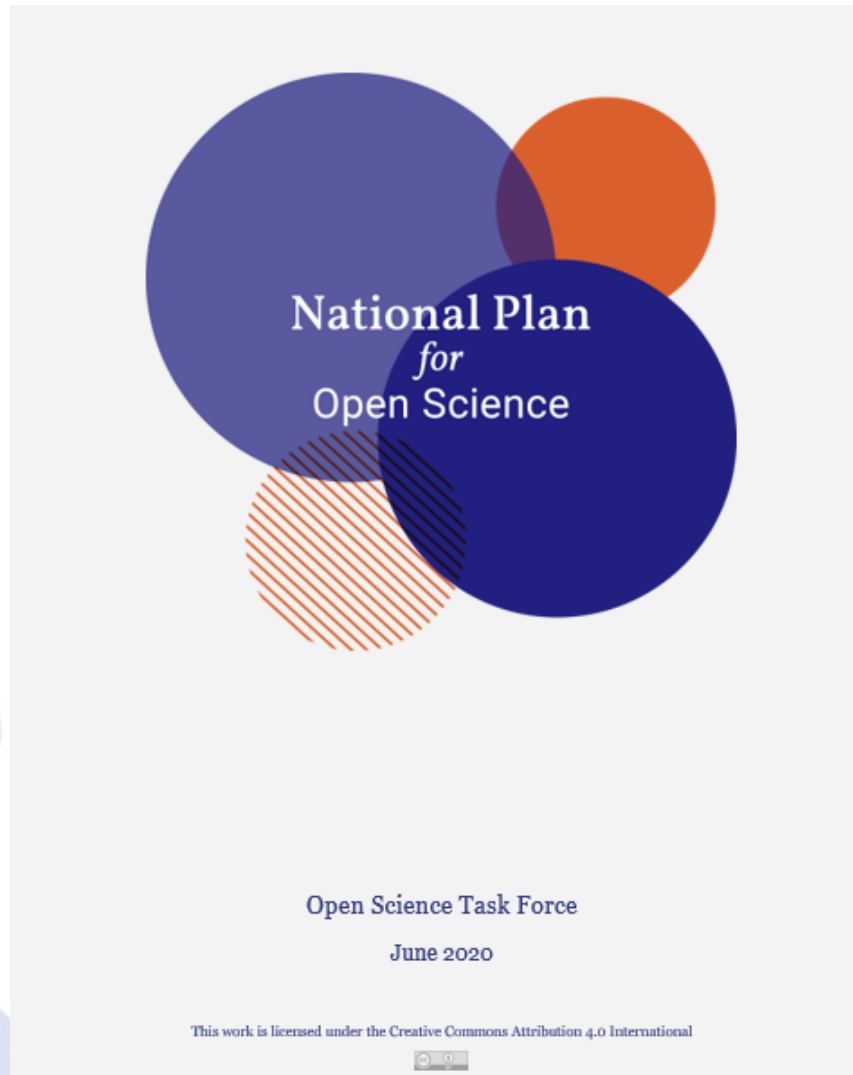

https://hellenicdataservice.gr/news/actions/view/523

Timeline

- 9/2019
  - Inaugural meeting
  - Assignments to sub-groups
  - Means of cooperation
  - Public announcement
- 10/2019
  - 1st draft of the Roadmap
  - Public consultation
  - Task Force meeting
- 11/2019
  - Final document of the Roadmap
  - Adoption by interested organisations
- 12/2019
  - Open Science Summit
  - End of Task Force activities – Conclusions
  - Invitation of the Ministry
  - Next Steps
- 2020 Year of Open Science

https://www.openaire.eu/blogs/2020-the-year-of-open-science-in-greece

# The Greek Proposal for a National OS Plan

**National Plan for Open Science**

Open Science Task Force
